

## MrPEX® OctaRail

Plastic Mounting Rail for 3/8" to 3/4" PEX

These OctaRails are 3.28 ft long and come in boxes of 100 each, and connects together to accommodate the length required. OctaRail is used to hold PEX pipes in place before embedded in concrete or sand. It can be fastened to existing concrete, high density foam insulation, steel decking or staked directly to the ground.
