ABOUT MrPEX® SYSTEMS

MrPEX® Systems is one of the leading North American system suppliers of residential and commercial radiant heating/cooling, snowmelt systems, and now offering, PEX-a domestic hot and cold water systems. We are a small but very experienced team on the fast track for growth in the USA and Canadian market. We are the exclusive providers of a unique PEX-a pipe from LK PEX AB in Sweden. As our core product, the MrPEX® PEX-a Tubing, is considerably more flexible, kink-resistant and able to hold more pressure than any other Pex Tubing on the market today, plus comes with an extensive 30 year warranty!

Combined with our highly technical knowledge and dedication to customer service, it's no wonder MrPEX® Systems is one of the fastest growing radiant system suppliers in North America.

WHY MrPEX®?

MrPEX® Systems provides all components you need for a superior system, whether radiant heating/cooling, PEX-a plumbing, or snowmelt systems. This includes tubing, fittings, manifolds, controls and accessories that are matched for high performance and reliability over many years of service. When used together, these components provide trouble free installation and long-term reliability. The MrPEX® tubing and fittings meet current national standards of performance and dimensional tolerances. The system package and product offering is growing continually with an emphasis on taking advantage of sustainable energy sources whenever possible. Additionally, we also offer IDC, the state-of-the-art PC based intelligent control systems that delivers optimized comfort and maximized efficiency by coordinating HVAC, Indoor Air Quality, and Hydronic Systems in one control. IDC is also capable of energy monitoring and remote access from anywhere in the world.

WHO IS MrPEX°?

MrPEX®-Tomas Lenman-started at Wirsbo Bruks AB in Sweden as a development engineer in 1971, developing the very first PEX process ever invented. He developed many Standard Specifications for PEX Tubing in Europe and Australia. MrPEX® wrote the ASTM F 876/877 for PEX Tubing during 1982 -84. In 1982 he co-authored the book "Water and Pipes". He founded and managed Wirsbo Company (USA) 1984 -1992 and continued consulting for this group until 1996. He authored the CSA B137.5 standard for PEX Tubing in 1989. MrPEX® managed the successful start-up of Roth Industries PEX Tubing Division 1997 -2001 after which he started his own radiant floor heating company: MrPEX® Systems using PEX Tubing with exclusive distribution in North America for LK PEX AB in Sweden. The unique production process is invented by Mr. Lennart Aagren of Sweden, previously manager of Uponor Innovation AB for many years, and his second innovation of a PEX Tubing manufacturing process. No one has more knowledge and experience with PEX Tubing and Radiant Floor Heating Systems than MrPEX®.

TUBING

A Slinky[®] is suspended on elastic threads around itself. There is no reinforcement along its length. Thus making it remarkably flexible and free to move. The shape remains round. It never kinks, although the bending radius is minimal.

Similarly, PEX molecular chains extend around the tubing like the Slinky® string circles around itself. This makes MrPEX® Tubing extremely flexible and less likely to kink. The molecular chain is aligned to resist stress around its perimeter. It is unusually strong, resisting inside pressure.

The molecular orientation is achieved during extrusion in a very unique process. Crosslinking occurs simultaneously with the orientation. Peroxide crosslinking guarantees optimal tubing properties.

Oxygen Diffusion

MrPEX® Barrier PEX Tubing has an Oxygen Diffusion Barrier which meets the stringent requirements of the European DIN 4726 standard. This standard restricts the amount of oxygen that is allowed to permeate the pipe and affect corrodible cast iron or steel components within the system. The standard restricts permeation to less than or equal to 0.10 g/(m3 d). This is considered to be a safe level.

MrPEX° PEX-a TUBING W/ OXYGEN BARRIER

MrPEX® Barrier PEX tubing is Cross-Linked Polyethylene (PEX-a) manufactured in accordance with ASTM F 876. Tubing is listed to ASTM F 876/877 (CSA B137.5) and ICC-PMG 1053, and also certified by NSF (NSF-rfh). MrPEX® Barrier PEX tubing is rated by the Hydrostatic Stress Board of PPI (Plastics Pipe Institute) at: 160 psi at 73.4°F; 100 psi at 180°F; 80 psi at 200°F. MrPEX® Barrier PEX tubing has an EVOH oxygen barrier that meet DIN 4726. Tubing sizes 3/8" through 3/4" also has a thin coating of PE on top of the barrier in order to reduce noise when installed in joist applications and Aluminum heat transfer plates.

MrPEX° PEX-AL-PEX TUBING

MrPEX® PEX-AL-PEX tubing is a composite pipe manufactured to ASTM F 1281-2005 (CSA B137.10). MrPEX® PEX-AL-PEX tubing is certified by NSF (NSF-rfh) and temperature/pressure rated by the Hydrostatic Stress Board of PPI (Plastics Pipe Institute) in accordance with ASTM F 1281-2005 (CSA B137.10) to 160 psi at 200°F. Not for potable water.

MANIFOLDS

1 1/4" STAINLESS STEEL MANIFOLDS FOR UP TO 5/8" PEX & PEX-AL-PEX TUBING. 2-12 LOOPS

MrPEX® 1 1/4" Stainless Steel manifolds achieves the highest level of long term corrosion resistance by using a bright annealed high-grade, Type 304, stainless steel with high nickel content. This creates a stable material structure with low levels of ferrite and magnetism. To eliminate the possibility of contact corrosion. The manifolds are fully assembled, ready for mounting. The supply side feature adjustable flowmeters for flows up to 1.45 gpm per loop, and the return side has balancing on/off valves, in accordance with DIN EN 1264-4. The adjustable flow meter allows for a positive shut-off and the manual plastic cap on the return valve can be removed to accommodate a valve actuator #5120700 or #5120701. The return balancing valve disc is designed to enable exact adjustments of small flows while still being able to handle large flow with minimal resistance. The branch Cv value is 1.38 and the manifold body accommodates flows up to 14 gpm. The supply and return manifold bodies both have wells to accomodate optional thermometers, and a multi-function swivel End Cap allowing for Fill/Drain or Vent. Each inlet of the manifold has a G 1" thread (BSP straight metric thread) allowing for easy connections of the supply and return mains. Use only "MrPEX® Manifold Option" adapters for appropriate connection. The branches have Eurokonus (EK 20) connections, and all MrPEX® EK 20 compression fitting assemblies (PEX to EK 20 or PEX-AL-PEX to EK 20) can be used to connect tubing to the manifold.

COMPOSITE MANIFOLD FOR UP TO 5/8" PEX & PEX-AL-PEX TUBING, 2-12 LOOPS

MrPEX® Composite Radiant Manifold is made from a durable high performance glass filled plastic designed to withstand high temperature and pressure. The manifold exceeds the oxygen diffusion standard DIN 4726 and is completely corrosion resistant. The manifold has flow capacity of 15.4 GPM with adjustable flowmeters for flows up to 1.00 GPM per loop, and comes partially assembled as a complete kit. The branch Cv value is 1.35.

Kit includes:

- A complete supply body with positive shut-off balancing flowmeters, thermometer, a Fill/Drain valve with Vent, and a blank end cap.
- A complete return body with on/off valves for manual shut-off, thermometer, a Fill/Drain valve with Vent, and a blank end cap.
- A set of mounting brackets
- A set of 1" NPT isolation union ball-valves.

Plastic cap on the return valve can be removed to accommodate valve actuator #5120700 or #5120701 (Adapter VA 90 part #5700090 is included). The branches have Eurokonus (EK 20) connections, and all MrPEX® EK 20 compression fitting assemblies (PEX to EK 20 or PEX-AL-PEX to EK 20) can be used to connect tubing up to 5/8" to the manifold. Single, 2 loop, and 3 loop add-on supply and return manifold sections and other accessories are sold separately to allow for easy add-on.

1 1/2" LARGE BRASS MANIFOLDS FOR 5/8" & 3/4" PEX & PEX-AL-PEX TUBING, 2-12 LOOPS

MrPEX® 11/2" Large Brass Manifolds are made from high-quality extruded brass and offered in 2–12 loop fully assembled manifolds. The supply body has balancing valves with adjustable flowmeters for flows up to 2.0 gpm per loop. The return body is equipped with on/off valves. The manual plastic cap on the return valve can be removed to accommodate a valve actuator #5120700 or #5120701. Actuator valve adapter #5700010 (VA-10) needs to be purchased separately with the actuator #5120700 or #5120701. The return balancing valve disc is designed to enable exact adjustments of small flows while still being able to handle large flow with minimal resistance. The branch Cv value is 1.3 and the manifold body accommodates flows up to 20 gpm. Manifolds are mounted on brackets ready to mount. Inlets comes with a 11/4" female NPT union ball-valve and end caps feature vent and fill/drain. The branches have EK 25 (Eurokonus) connections, and all MrPEX® EK 25 fitting assemblies (PEX to EK25 or PEX-AL-PEX to EK 25) can be used to connect tubing to the manifold.

1 1/2" LARGE STAINLESS STEEL MANIFOLDS FOR 5/8" & 3/4" PEX & PEX-AL-PEX TUBING

MrPEX® 11/2" Large Stainless Steel Manifolds are made from high-quality Type 304 stainless steel and offered in 3–10 loop sections. The manifold body comes with G 11/2" flat gasket unions for connection of inlet ball valve G 11/2" x 11/2" Female NPT and end caps. The branches comes with G 1" flat gasket unions to accomodate the on/off and balancing branch valves G 1" x EK 25 for easy connection with MrPEX® EK 25 fitting assemblies (PEX to EK 25 or PEX-AL-PEX to EK 25) to connect tubing to the manifold. The branch Cv value is 6 and the manifold body accommodates flows up to 25 gpm. The manifold Base Kit comes with two brackets, two 11/2" female NPT ball-valves and two End Caps with fill/drain.

PEX FITTINGS

F2159 PPSU PEX PRESS FITTINGS

MrPEX® plastic fittings are made from a blend of engineered high performance PolyPhenylSUlfone (PPSU) resin to achieve a long-term durable product. These PPSU fittings are durable, light weight, corrosion free, and resistant to chlorine and other substances that may be present in today's potable water supply. The Sulfone resin has been used and refined over the past 20 years and has proven a very reliable replacement for brass and copper fittings. MrPEX® fittings are listed to ASTM F2159. MrPEX® Stainless Steel Press Sleeves and PEX Press tools are required and purchased separately.

INTEGRATED DYNAMIC CONTROL

The Ultimate In Indoor Comfort, Snowmelt & Energy Control!

IDC is a PC based intelligent control system which delivers optimized comfort and maximized efficiency by coordinating HVAC, Indoor Air Quality, and Hydronic systems in one control. IDC is the optimal control system for incorporating

radiant floor heating and cooling systems, with renewable energy sources such as solar, heat pumps, or others. IDC also offers a new and unique approach to snowmelt control. The IDC System allows remote access from anywhere in the world for monitoring, managing, and controlling via the web using any web enabled device such as a PC, Smartphone, or tablet. IDC gives you the opportunity to do as much or as little as you demand, from a small house to large commercial building, and brings intelligent climate control technologies, previously exclusive to large-scale commercial buildings, into the residential and mid-range commercial market. Many larger homes utilize some kind of Home Automation system, so IDC has an interface that allows the homeowner to integrate selected information to be shown and accessed in the Home Automation system interface.

The system brains consists of a PC with the IDC software using the home network to communicate with a custom cabinet housing all the I/O blocks and communication units. Wired to the cabinet are all the sensors, equipment and control devices.

The IDC system is based on control points. These can be Analog Inputs, Analog Outputs, Digital Inputs, and Digital Outputs. The number of points will dictate the software package required. The control cabinet will then be matched to accommodate the sensors, equipment and control devices in the system. Therefore we quote the IDC System on a project by project basis.

Please contact MrPEX® Systems or your local rep for pricing.

TOOLS & ACCESSORIES

HEAT TRANSFER ACCESSORIES

MrPEX® Accessories feature extruded aluminum heat transfer plates and omega style aluminum heat transfer plates for even heat distribution in suspended applications. RetroPanel is used for retrofit applications on top of existing concrete or sub-floor.

Omega Style Aluminum Heat Transfer Plates

PART#	ТҮРЕ	UNIT
6110702	18" x 5" for 1/2" Tubing	Box of 100

DuoTrack Extruded Aluminum Heat Transfer Plates, Pre-drilled

PART#	ТҮРЕ	UNIT
6110733	48" x 3.75" for 3/8" or 1/2" PEX	Box of 20

NOTE: Quick estimate for 8" O.C., ((square footage \times 0.9) \times 1.5) / 4 = Qty of DuoTrack Plates.

RetroPanel Heat Transfer System, 8" On Center

PART#	ТҮРЕ	UNIT
6114001	15 3/4" x 31 1/2" Straight for 1/2" PEX	Box of 10
6114002	15 3/4" x 15 3/4" Return for 1/2" PEX	Box of 20
6114007	Replacement Fasteners for #6114002	Bag of 4

NOTE: Estimated list price per square foot of covered area is \$8.06.

Material estimate; Floor area (sqft) \times 0.9 = net floor area.

Straight Panel = Net floor area \times 0.70 / 3.44 = Qty.

Return Panel = Net floor area \times 0.30 / 1.72 = Qty.

LIMITED WARRANTY—EFFECTIVE MAY 1, 2018 VALID FOR MrPEX® SYSTEMS TUBING & PANEL HEATING COMPONENTS

LIMITED WARRANTY

MrPEX® Systems warrants to its "clients" that the MrPEX® Systems Tubing and Panel Heating Components, used for Panel Heating applications, sold hereunder shall be free from defects in material and workmanship and that the components will conform to specifications stated in MrPEX' Systems Publications. This Limited Warranty shall expire thirty (30) years for the MrPEX® Systems tubing, five (5) years for DZR Press Fittings and two (2) years for all other components, from date of shipment by MrPEX Systems unless otherwise specified in writing. MrPEX' Systems further warrants that products listed are compatible with each other, but at the same time we disclaim warranty for claims related to compatibility with non-MrPEX Systems products. Components sold under this Limited Warranty must (1) be selected, designed, and installed according to the instructions in MrPEX® Systems Publications using appropriate trade workmanship and according to the local building code(s), (2) remain in their originally installed location, (3) are connected to appropriate water and power supplies, (4) show no evidence of tampering, mishandling, neglect, accidental damage, modification or repair without the approval of MrPEX® Systems or damage done to the product by anyone other than MrPEX® Systems authorized personnel. MrPEX Systems' sole obligation hereunder shall be, at its option, to issue credit, repair or replace any component or part thereof which is proved to be other than as warranted. No allowance shall be made to clients for transportation or labor charges unless such charges are authorized in writing in advance by MrPEX® Systems. Any repairs without the express written consent of MrPEX® Systems, shall render this Limited Warranty invalid. Warranty claims must be received by MrPEX° Systems within the applicable warranty period and within thirty (30) days from the time when the cause for the claim occurred or was discovered. Upon receipt of prompt notice of a warranty claim, MrPEX° Systems shall have ten (10) business days in which to determine whether it acknowledges responsibility for any asserted defects in material or workmanship and the appropriate action to be taken. This Limited Warranty and any claims arising from breach of warranty, or any other claim arising hereunder, shall be governed and construed under the laws of the State of Minnesota. No other persons than MrPEX' Systems employees have any express or implied authority to bind MrPEX® Systems to any agreement or warranty of any kind without the express written consent of MrPEX® Systems.

Disclaimer of Warranties:

MrPEX® Systems disclaims any warranty not provided herein including the implied warranty of merchantability and implied warranty of fitness for a particular purpose. It is expressly understood that MrPEX® Systems is not responsible for any consequential or other damages that may arise from using MrPEX® Systems components. Damage resulting from water freezing in the tubing does not constitute a defect in material or workmanship, and shall not be covered by this warranty. MrPEX® Systems tubing may not be stored in direct sunlight for any period longer than three weeks or this limited warranty becomes invalid. MrPEX® Systems disclaims any statutory or implied warranty of habitability. MrPEX® Systems further disclaims any responsibility for losses, expenses, inconveniences, special, indirect, secondary, incidental or consequential damages arising from ownership or use of the articles sold hereunder. There are no warranties which extend beyond the face hereof.

PRE-INSULATED PEX-a TUBING

Full coils are 328 feet . Shorter coil lengths are available with a \$50.00 net cut fee. All freight on Pre-Insulated PEX Products will be added to invoice. No FFA allowance provided by MrPEX®.

LIMITED WARRANTY—EFFECTIVE MAY 1, 2018 VALID FOR MrPEX® PRE-INSULATED TUBING & PRE-INSULATED COMPONENTS

LIMITED WARRANTY

MrPEX° Systems warrants to its "clients" that the MrPEX° Systems Pre-Insulated Tubing and Pre-Insulated Components, used for underground applications, sold hereunder shall be free from defects in material and workmanship and that the components will conform to specifications stated in MrPEX° Systems Publications. This Limited Warranty shall expire ten (10) years for all Pre-Insulated PEX and Components sold by MrPEX, from date of shipment by MrPEX® Systems unless otherwise specified in writing. MrPEX® Systems further warrants that products listed are compatible with each other, but at the same time we disclaim warranty for claims related to compatibility with non-MrPEX° Systems products. Components sold under this Limited Warranty must (1) remain in their originally installed location, (2) are connected to appropriate water and power supplies, (3) show no evidence of tampering, mishandling, neglect, accidental damage, modification or repair without the approval of MrPEX® Systems or damage done to the product by anyone other than MrPEX® Systems authorized personnel. MrPEX Systems' sole obligation hereunder shall be, at its option, to issue credit, repair or replace any component or part thereof which is proved to be other than as warranted. No allowance shall be made to clients for transportation or labor charges unless such charges are authorized in writing in advance by MrPEX° Systems. Any repairs without the express written consent of MrPEX° Systems, shall render this Limited Warranty invalid. Warranty claims must be received by MrPEX° Systems within the applicable warranty period and within thirty (30) days from the time when the cause for the claim occurred or was discovered. Upon receipt of prompt notice of a warranty claim, MrPEX° Systems shall have ten (10) business days in which to determine whether it acknowledges responsibility for any asserted defects in material or workmanship and the appropriate action to be taken. This Limited Warranty and any claims arising from breach of warranty, or any other claim arising hereunder, shall be governed and construed under the laws of the State of Minnesota. No other persons than MrPEX' Systems employees have any express or implied authority to bind MrPEX® Systems to any agreement or warranty of any kind without the express written consent of MrPEX° Systems.

Disclaimer of Warranties:

MrPEX® Systems disclaims any warranty not provided herein including the implied warranty of merchantability and implied warranty of fitness for a particular purpose. It is expressly understood that MrPEX® Systems is not responsible for any consequential or other damages that may arise from using MrPEX® System components. Damage resulting from water freezing in the tubing does not constitute a defect in material or workmanship, and shall not be covered by this warranty. MrPEX® Systems disclaims any statutory or implied warranty of habitability. MrPEX® Systems further disclaims any responsibility for losses, expenses, inconveniences, special, indirect, secondary, incidental or consequential damages arising from ownership or use of the articles sold hereunder. There are no warranties which extend beyond the face hereof.

TUBING

MrPEX° POTABLE PEX-a TUBING

MrPEX® POTABLE PEX-a Tubing is Cross-Linked Polyethylene (PEX-a) manufactured in accordance with ASTM F 876. Tubing is listed to ASTM F 876/F877/F2023, ASTM E84 (CSA B137.5), cNSFus-pw, NSF/ANSI-61, NSF/ANSI-14, Annex G, NSF U.P.Code PEX 5106, ICC-PMG, ANSI/AWWA 904. MrPEX® POTABLE PEX-a tubing is rated by the Hydrostatic Stress Board of PPI (Plastics Pipe Institute) at: 160 psi at 73.4°F; 100 psi at 180°F. MrPEX® POTABLE PEX-a tubing may be used with fittings that are compliant with ASTM F1807/F1960/F2080/F2098/F2159 standards.

MrPEX® POTABLE PEX-a tubing is offered in coils and straight lengths of RED, WHITE and BLUE colors to help identify hot and cold water supply.

MULTIPORT TEES

COMPOSITE MULTIPORT TEE'S, F2159 FITTINGS

MrPEX® Composite Multiport Tees are made from a blend of engineered high performance Polyphenylsulfone (PPSU) resin to achieve a long-term durable product. These PPSU fittings are durable, light weight, corrosion free, and resistant to chlorine and other substances that may be present in today's potable water supply. The Sulfone resin has been used and refined over the past 20 years and has proven a very reliable replacement for brass and copper fittings. MrPEX® multiport tees meet ASTM F2159. MrPEX Stainless Steel Press Sleeves and PEX Press tools are required and purchased separately.

NOTES

LOOP CAD

MrPEX® is pre-loaded in LoopCAD®

MrPEX's radiant heating and snow melt systems are now available preloaded in LoopCAD. Not only can you design your circuit layouts, perform load calculations, and generate all hydronic data, you can also generate a complete materials list and quotation based on MrPEX's detailed product

information. The MrPEX® design recommendations and data are also built in to the Add-on for you.

Below you can download LoopCAD with the MrPEX® Add-on already preloaded. Initially this will be in trial mode, giving you 30-days to evaluate the software for free. If you are downloading this as an update and you have already entered an Activation Code, the program automatically switch to the full version for you.

Download of this release is available at: www.LoopCAD.com/mrpex

For additional MrPEX® information go to www.mrpexsystems.com.

LIMITED WARRANTY—EFFECTIVE MAY 1, 2018 VALID FOR MrPEX® SYSTEMS POTABLE PEX-a TUBING, FITTINGS & OTHER SELECT PLUMBING PRODUCTS

LIMITED WARRANTY

MrPEX® Systems warrants to its "clients" that the MrPEX® Systems POTABLE PEX-a Tubing and Plumbing Components, used for Plumbing applications, sold hereunder shall be free from defects in material and workmanship and that the components will conform to specifications stated in MrPEX® Systems Publications. This Limited Warranty shall expire thirty (30) years for the MrPEX® Systems POTABLE PEX-a tubing, five (5) years for Lead Free Brass Fittings, PPSU Fittings and two (2) years for all other components, from date of shipment by MrPEX® Systems unless otherwise specified in writing. MrPEX® Systems further warrants that products listed are compatible with Each other, but at the same time we disclaim warranty for claims related to compatibility with non-MrPEX® Systems products. Components sold under this Limited Warranty must (1) be selected, designed, and installed according to the instructions in MrPEX® Systems Publications using appropriate trade workmanship and according to the local building code(s), (2) remain in their originally installed location, (3) are connected to appropriate water and power supplies, (4) show no evidence of tampering, mishandling, neglect, accidental damage, modification or repair without the approval of MrPEX® Systems or damage done to the product by anyone other than MrPEX® Systems authorized personnel. A ten (10) year system warranty shall be offered when a potable water system is installed solely with MrPEX® Systems tubing, fittings, and components. MrPEX® Systems' sole obligation hereunder shall be, at its option, to issue credit, repair or replace any component or part thereof which is proved to be other than as warranted. No allowance shall be made to clients for transportation or labor charges unless such charges are authorized in writing in advance by MrPEX® Systems. Any repairs without the express written consent of MrPEX® Systems, shall render this Limited Warranty invalid. Warranty claims must be received by MrPEX® Systems within the applicable warranty period and within thirty (30) days from the time when the cause for the claim occurred or was discovered. Upon receipt of prompt notice of a warranty claim. MrPEX® Systems shall have ten (10) business days in which to determine whether it acknowledges responsibility for any asserted defects in material or workmanship and the appropriate action to be taken. This Limited Warranty and any claims arising from breach of warranty, or any other claim arising hereunder, shall be governed and construed under the laws of the State of Minnesota. No other persons than MrPEX® Systems employees have any express or implied authority to bind MrPEX® Systems to any agreement or warranty of any kind without the express written consent of MrPEX® Systems.

Disclaimer of Warranties:

MrPEX® Systems disclaims any warranty not provided herein including the implied warranty of merchantability and implied warranty of fitness for a particular purpose. It is expressly understood that MrPEX® Systems is not responsible for any consequential or other damages that may arise from using MrPEX® Systems components. Damage resulting from water freezing in the tubing does not constitute a defect in material or workmanship, and shall not be covered by this warranty. MrPEX® Systems tubing may not be stored in direct sunlight for any period longer than three weeks or this limited warranty becomes invalid. Also, exposure to direct or considerable indirect sunlight after installation voids this limited warranty. MrPEX® Systems disclaims any statutory or implied warranty of habitability. MrPEX® Systems further disclaims any responsibility for losses, expenses, inconveniences, special, indirect, secondary, incidental or consequential damages arising from ownership or use of the articles sold hereunder. There are no warranties which extend beyond the face hereof.

General Terms and Conditions

 $These \ terms \ and \ conditions \ apply \ to \ all \ MrPEX^{@} \ products. \ All \ customers \ are \ subject \ to \ credit \ approval \ before \ shipment \ of \ product.$

Price Changes

MrPEX® reserves the right to change published prices and product availability without prior notification. Our policy is a minimum notification period of 30 days, but under unusual circumstances it may become necessary to shorten this period to meet market needs.

Terms

Terms are 30 days Net or per separate agreement with individual customer.

Minimum Order Quantity

The minimum order is \$300.00 net price. For orders less than \$300.00 net, an order processing charge of \$15.00 will be applied.

Finance Charge

A finance charge of one and one half percent (1.5%) per month will be charged on all overdue balances. This corresponds to an eighteen percent (18%) annual percentage rate (APR).

Taxes

We are required by law to charge applicable state and local taxes unless a sales tax exemption certificate has been provided.

Shipping

We will ship orders received as soon as possible. We will try to communicate regarding possible back-orders. Back-orders will be billed separately. Note that items may sometimes be shipped from separate locations. Orders will ship from closest warehouse location only when ordered products are available from there.

Freight Claims, Shortages

If material is received short or damaged, the receiver must require the agent of the transport company to make a notation of delivery condition on the freight bill. If, or when, the goods is arrival inspected and it is found to have a damage likely caused by the freight company, the receiver must report the claim to MrPEX® Systems. We must receive such a claim within 48 hours of the receipt of goods.
