MrPEX® 1 1/2" BRASS MANIFOLD FOR 5/8" AND 3/4" PEX AND PEX-AL-PEX TUBING, 2-12 LOOPS

MrPEX 1 ½" Brass Manifold is made from high quality alloy extruded and chrome plated after machining, and is offered in 2 through 12 loop configurations. The manifold comes mounted on brackets and it is equipped with high flow ball valves provided with thermometers, manual air vents and fill/drain valves. The SUPPLY (upper) manifold is fitted with balancing flowmeters with readable range of 0 to 2 GPM that allow flow adjustment of each individual loop. The flow meters have a brass body and the sight glass is made from temperature and impact resistant plastic material, all components are anti-freeze resistant up to a 50% mix. The RETURN (lower) manifold, has manual on/off valves that controls the flow for each individual circuit. The manual knob can be removed to accom-

modate the MrPEX actuators (part# 5120700 & 5120701). Supply and return mains can be connected from either left or right sides. The manifold comes ready for a left-hand connection. Connection from the right can be done by removing the manifold body from the brackets and flipping them over.
