

LOOP CAD

MrPEX® now pre-loaded in LoopCAD®

MrPEX's radiant heating and snow melt systems are now available preloaded in LoopCAD. Not only can you design your circuit layouts, perform load calculations, and generate all hydronic data, you can also generate a complete materials list and quotation based on MrPEX's detailed product information. The MrPEX® design recommendations and data are also built in to the Add-on for you.

Below you can download LoopCAD with the MrPEX® Add-on already preloaded. Initially this will be in trial mode, giving you 30-days to evaluate the software for free. If you are downloading this as an update and you have already entered an Activation Code, the program automatically switch to the full version for you.

Download of this release is available at: www.LoopCAD.com/mrpex

For additional MrPEX® information go to www.mrpexsystems.com.
