

Radiant Heating & Cooling / Plumbing / Snowmelt / Controls

MrPEX<sup>®</sup> Radiant Foam Panel features aluminum heat distribution across the entire panel, as well as a  $\Omega$ -shaped turning track integrated in all panels. Radiant Foam Panels come in two options, 5/8" thick panel for 3/8" tubing and 3/4" thick panel for 1/2" tubing. The panels are produced in XPS 400, which has a high compressive strength of 8,324 PSF

## Radiant Foam Panel Benefits:

- Low thermal mass—Quick output response
- One panel has straits and turn arounds built into is so you only need one panel
- Suitable for all floor types
- Panels come folded in a 2' x 2' Box and unfolds to 2' x 4' Panel
- Light weight for ease of installation

Part #	Description	Type	Unit
6115004	Radiant Foam Panel for 3/8" PEX - 6" O.C	2ft x 4ft x 5/8"	Box of 14
6115005	Radiant Foam Panel for 1/2" PEX - 8" O.C	2ft x 4ft x 3/4"	Box of 12

**Panel Calculation**— Net floor area/7.8 = number of panels (round up to box quantity)
