CONTROLS

ABOUT MrPEX® SYSTEMS

MrPEX® Systems is one of the leading North American system suppliers of residential and commercial radiant heating/cooling, snowmelt systems, and PEX-a domestic hot and cold water systems. We are a small but very experienced team on the fast track for growth in the USA and Canadian market. We are the exclusive providers of a unique PEX-a pipe from LK PEX AB in Sweden. As our core product, the MrPEX® PEX-a Tubing, is considerably more flexible, kink-resistant and able to hold more pressure than any other PEX Tubing on the market today, plus comes with an extensive 30 year warranty!

Combined with our highly technical knowledge and dedication to customer service, it's no wonder MrPEX® Systems is one of the fastest growing radiant system suppliers in North America.

WHY MrPEX®?

MrPEX® Systems provides all components you need for a superior system, whether radiant heating/cooling, PEX-a plumbing, or snowmelt systems. This includes tubing, fittings, manifolds, controls and accessories that are matched for high performance and reliability over many years of service. When used together, these components provide trouble free installation and long-term reliability. The MrPEX® tubing and fittings meet current national standards of performance and dimensional tolerances. The system package and product offering is growing continually with an emphasis on taking advantage of sustainable energy sources whenever possible.

Additionally, we also offer IDC, the state-ofthe-art PC based intelligent control systems that delivers optimized comfort and maximized efficiency by coordinating HVAC, Indoor Air Quality, and Hydronic Systems in one control. IDC is also capable of energy monitoring and remote access from anywhere in the world.

WHO IS MrPEX®?

MrPEX®-Tomas Lenman-started at Wirsbo Bruks AB in Sweden as a development engineer in 1971, developing the very first PEX process ever invented. He developed many Standard Specifications for PEX Tubing in Europe and Australia. MrPEX® wrote the ASTM F 876/877 for PEX Tubing during 1982 -84. In 1982 he co-authored the book "Water and Pipes". He founded and managed Wirsbo Company (USA) 1984 -1992 and continued consulting for this group until 1996. He authored the CSA B137.5 standard for PEX Tubing in 1989. MrPEX® managed the successful start-up of Roth Industries PEX Tubing Division 1997 -2001 after which he started his own radiant floor heating company: MrPEX® Systems using PEX Tubing with exclusive distribution in North America for LK PEX AB in Sweden. The unique production process is invented by Mr. Lennart Aagren of Sweden, previously manager of Uponor Innovation AB for many years, and his second innovation of a PEX Tubing manufacturing process. No one has more knowledge and experience with PEX Tubing and Radiant Floor Heating Systems than MrPEX®.

PRE-INSULATED PEX-A TUBING 40

RADIANT

TUBING

A Slinky[®] is suspended on elastic threads around itself. There is no reinforcement along its length. Thus making it remarkably flexible and free to move. The shape remains round. It never kinks, although the bending radius is minimal.

Similarly, PEX molecular chains extend around the tubing like the Slinky® string circles around itself. This makes MrPEX® Tubing extremely flexible and less likely to kink. The molecular chain is aligned to resist stress around its perimeter. It is unusually strong, resisting inside pressure.

The molecular orientation is achieved during extrusion in a very unique process. Crosslinking occurs simultaneously with the orientation. Peroxide

MrPEX® Barrier PEX
Tubing has an Oxygen
Diffusion Barrier which
meets the stringent
requirements of the European
DIN 4726 standard. This standard
restricts the amount of oxygen that
is allowed to permeate the pipe and affe

is allowed to permeate the pipe and affect corrodible cast iron or steel components within the system. The standard restricts permeation to less than or equal to 0.10 g/(m3 d). This is considered to be a safe level.

MrPEX® PEX-a TUBING W/ OXYGEN BARRIER

MrPEX® Barrier PEX tubing is Cross-Linked Polyethylene (PEX-a) manufactured in accordance with ASTM F 876. Tubing is listed to ASTM F 876/877 (CSA B137.5) and ICC-PMG 1053, and also certified by NSF (NSF-rfh). MrPEX® Barrier PEX tubing is rated by the Hydrostatic Stress Board of PPI (Plastics Pipe Institute) at: 160 psi at 73.4°F; 100 psi at 180°F; 80 psi at 200°F. MrPEX® Barrier PEX tubing has an EVOH oxygen barrier that meet DIN 4726. Tubing sizes 3/8" through 3/4" also has a thin coating of PE on top of the barrier in order to reduce noise when installed in joist applications and Aluminum heat transfer plates.

MrPEX® PEX-AL-PEX TUBING

MrPEX® PEX-AL-PEX tubing is a composite pipe manufactured to ASTM F 1281-2005 (CSA B137.10). MrPEX® PEX-AL-PEX tubing is certified by NSF (NSF-rfh) and temperature/pressure rated by the Hydrostatic Stress Board of PPI (Plastics Pipe Institute) in accordance with ASTM F 1281-2005 (CSA B137.10) to 160 psi at 200° F. Not for potable water.

MANIFOLDS

325 SERIES MANIFOLD, 2-12 LOOPS

MrPEX® 1 ¼" Stainless Steel Manifold is made from high quality stainless steel, and is offered in 2 through 12 loop configurations. The manifold comes mounted on brackets and it is equipped with full port ball valves provided with thermometers, manual air vents and fill/drain valves. The branch Cv value is 1.39.

The SUPPLY (upper) manifold is fitted with balancing flowmeters with readable range of 0 to 2 GPM that allow flow adjustment of each individual loop. The flow meters have a brass body and the sight glass is made from temperature and impact resistant plastic material, all components are antifreeze resistant up to a 50% mix.

The RETURN (lower) manifold, has manual on/off valves that controls the flow for each individual circuit. The manual knob can be removed to accommodate the MrPEX® actuators VA 10 Adpater (part# 5120700 & 5120701).

The branches have Eurokonus, (EK20) connections and all MrPEX EK 20 compression fitting assemblies (PEX to EK 20 or PEX-AL-PEX to EK 20) can be used to connect tubing up to 5/8" to manifold

Supply and return mains can be connected from either left or right sides. The manifold comes ready for a left-hand connection. Connection from the right can be done by removing the manifold body from the brackets and flipping them over. Manifold comes with 1" NPT ball valves

* Shipped as shown

327 SERIES MANIFOLD, 2-12 LOOPS

MrPEX® 1-1/2" Stainless Steel Manifold is made from high quality stainless steel, and is offered in 2 through 12 loop configurations. The manifold comes mounted on brackets and it is equipped with full port ball valves with thermometers, manual air vents and fill/drain valves. The Cv is 1.39 per branch. Branch connections are EK 25.

The SUPPLY (upper) manifold is fitted with balancing flowmeters with readable range of 0 to 2 GPM that allow flow adjustment of each individual loop. The flow meters have a brass body and the sight glass is made from temperature and impact resistant plastic, all components are antifreeze resistant up to a 50% mix.

The RETURN (lower) manifold, has manual on/off valves that controls the flow for each individual circuit. The manual knob can be removed to accommodate the MrPEX actuators (part# 5120700 & 5120701) using VA10 Adapter. Supply and return mains can be connected from either left or right sides. The manifold comes ready for a left-hand connection. Connection from the right can be done by removing the manifold body from the brackets and flipping them over.

Supply/Return valves are 1-1/4" NPT.

328 SERIES MANIFOLD, 2-12 LOOPS

 $MrPEX^{\$}$ 11/2" High Flow Stainless Steel Manifold is made from high quality stainless steel, and is offered in 2 through 12 loop configurations.

The manifold comes mounted on brackets and it is equipped with full port ball valves with thermometers, manual air vents and fill/drain valves. The CV value is 5.35 per branch. Branch connections are EK 25.

The SUPPLY manifold loop connections come with a balancing Lockshield x EK 25 allowing isolation of each loop.

The Return manifold loop connections come with a G 1" flat gasket x EK 25 inline visual balancing flowmeters with a range from 0 to 4 GPM allowing flow adjustment of each individual loop.

Supply/Return valves are 11/4" NPT

326 SERIES MANIFOLD, 3-13 LOOPS

MrPEX® $1\,1/2$ " Stainless Steel Manifolds are made from high-quality Type 304 stainless steel and comes fully assembled in 3–13 loop configurations. The manifold body supply and return inlet comes with $1\,1/2$ " NPT flat gasket union to aid in installation. End cap, vent, drain/purge valve come factory mounted on the body. The branches come with G 1" x EK 25 flat gasket on/off valves on the supply, and G 1" x EK 25 flat gasket inline visual flowmeter with built-in balancing valves on the return. Use any of the MrPEX® EK 25 fitting assemblies (PEX to EK 25 or PEX-AL-PEX to EK 25) to connect tubing to the manifold.

PEX FITTINGS

F2159 PPSU PEX PRESS FITTINGS

MrPEX® plastic fittings are made from a blend of engineered high performance PolyPhenylSUlfone (PPSU) resin to achieve a long-term durable product. These PPSU fittings are durable, light weight, corrosion free, and resistant to chlorine and other substances that may be present in today's potable water supply. The Sulfone resin has been used and refined over the past 20 years and has proven a very reliable replacement for brass and copper fittings. MrPEX® fittings are listed to ASTM F2159. MrPEX® Stainless Steel Press Sleeves and PEX Press tools are required and purchased separately.

*See page 34–35 for approved tools

INTEGRATED DYNAMIC CONTROL

The Ultimate In Indoor Comfort, Snowmelt & Energy Control!

IDC is an intelligent control system which delivers optimized comfort and maximized efficiency by coordinating all the mechanical systems of your building including HVAC, Indoor Air Quality, and Hydronic systems in one control. IDC is the optimal control system for incorporating radiant floor heating and cooling systems, with renewable energy sources such as solar, heat pumps, or others. IDC also offers complete integrated multi-zone snowmelt control. The IDC System allows remote access from anywhere in the world for monitoring, managing, and controlling via the web using a Smartphone or tablet. IDC gives you the opportunity to do as much or as little as you demand, from a small house to large commercial building, and brings intelligent control technologies, previously exclusive to large-scale commercial buildings, into the residential and mid-range commercial market.

10c

Basement

The system brain consists of programmable I/O blocks that are BACnet and Modbus native, and a Linux PC that provides high speed, secure connection to any device. Wired to the cabinet are all the sensors, equipment, and control devices. The system comes standard with a 10" touch screen control interface that can be mounted in the living area. If individual zone control is desired, 5" touch screens provide the user with complete control. The IDC system is custom designed for each application, therefore we provide quotations on a project-by-project basis.

Please contact MrPEX® Systems or your local rep for pricing.

TOOLS & ACCESSORIES

HEAT TRANSFER ACCESSORIES

MrPEX® Accessories feature extruded aluminum heat transfer plates and omega style aluminum heat transfer plates for even heat distribution in suspended applications. RetroPanel is used for retrofit applications on top of existing concrete or sub-floor.

Omega Style Aluminum Heat Transfer Plates

| PART# | ТҮРЕ | UNIT |
|---------|--------------------------|------------|
| 6110702 | 18" x 5" for 1/2" Tubing | Box of 100 |

DuoTrack Extruded Aluminum Heat Transfer Plates, Pre-drilled

| PART# | TYPE | UNIT |
|---------|----------------------------------|-----------|
| 6110733 | 48" x 3.75" for 3/8" or 1/2" PEX | Box of 20 |

NOTE: Quick estimate for 8" O.C., ((square footage x 0.9) x 1.5) / 4 = Qty of DuoTrack Plates.

Extruded Aluminum Heat Transfer Plate for 3/8" PEX

| PART# | ТҮРЕ | UNIT |
|---------|---------------------------|-----------|
| 6110731 | 48" x 3 3/4" for 3/8" PEX | Box of 20 |

RetroPanel Heat Transfer System, 8" On Center

| PART# | ТҮРЕ | UNIT |
|---------|--|-----------|
| 6114001 | 15 3/4" x 31 1/2" Straight for 1/2" PEX | Box of 10 |
| 6114002 | 15 3/4" x 15 3/4" Return for 1/2" PEX | Box of 20 |

NOTE:

Material estimate; Floor area (sqft) \times 0.9 = net floor area.

Straight Panel = Net floor area \times 0.70 / 3.44 = Qty.

Return Panel = Net floor area x 0.30 / 1.72 = Qty.

HeatPly—Radiant Wood Track for 3/8" PEX Tubing

| PART# | ТҮРЕ | UNIT |
|---------|---|-----------|
| 6115019 | Run Panel - 6" O.C 12" x 48" | Box of 10 |
| 6115029 | Turn-Around Panel - 6" O.C 12" x 48" | Box of 10 |
| 6115039 | Manifold Panel - 6" O.C 12" x 48" | Box of 10 |

Material estimate:

Straight Panel = Square foot x 2×0.75 / 8 = Single Qty panels Return Panel = Square foot x 2×0.25 / 7 = Single Qty panels

Radiant Foam Panel for 3/8" PEX - 6" O.C

| PART# | ТҮРЕ | UNIT |
|---------|----------------|-----------|
| 6115004 | 2' x 4' x 5/8" | Box of 14 |

Radiant Foam Panel for 1/2" PEX - 8"O.C

| PART# | ТҮРЕ | UNIT |
|---------|----------------|-----------|
| 6115005 | 2' x 4' x 3/4" | Box of 12 |

Material estimate:

Net Square Foot/7.8=number of panels

MANIFOLD CABINETS

TUBING

MrPEX® POTABLE PEX-a TUBING

MrPEX® POTABLE PEX-a Tubing is Cross-Linked Polyethylene (PEX-a) manufactured in accordance with ASTM F 876. Tubing is listed to ASTM F 876/F877/F2023, ASTM E84 (CSA B137.5), cNSFus-pw, NSF/ANSI-61, NSF/ANSI-14, Annex G, NSF U.P.Code PEX 5106, ICC-PMG, ANSI/AWWA 904. MrPEX® POTABLE PEX-a tubing is rated by the Hydrostatic Stress Board of PPI (Plastics Pipe Institute) at: 160 psi at 73.4°F; 100 psi at 180°F. MrPEX® POTABLE PEX-a tubing may be used with fittings that are compliant with ASTM F1807/F1960/F2080/F2098/F2159 standards.

MrPEX® POTABLE PEX-a tubing is offered in coils and straight lengths of RED, NATURAL and BLUE colors to help identify hot and cold water supply.

We are officially phasing out the use of Natural pipe and transitioning exclusively to White pipe for all future applications. This change is being implemented to enhance product uniformity and improve UV resistance across our systems. The transition will be executed in a phased approach to ensure minimal disruption.

MULTIPORT TEES

COMPOSITE MULTIPORT TEE'S, F2159 FITTINGS

MrPEX® Composite Multiport Tees are made from a blend of engineered high performance Polyphenylsulfone (PPSU) resin to achieve a long-term durable product. These PPSU fittings are durable, light weight, corrosion free, and resistant to chlorine and other substances that may be present in today's potable water supply. The Sulfone resin has been used and refined over the past 20 years and has proven a very reliable replacement for brass and copper fittings. MrPEX® multiport tees meet ASTM F2159. MrPEX Stainless Steel Press Sleeves and PEX Press tools are required and purchased separately.

| 8610750 | 3/4" with Pistol Grip | Each |
| 8611000 | 1" with Pistol Grip | Each |
| 8611250 | 1-1/4" with Pistol Grip | Each |
| 8611500 | 1-1/2" with Pistol Grip | Each |
| 8612000 | 2" with Pistol Grip | Each |

860xxxx Jaws

Compatible with the following tools:

- Hilti NUN 54-22
 - Nibco PC-10M Mini
- Rothenberger Compact
- Nibco PC-20M Mini • Ridgid RP 115

May be compatible with other third-party tools.

861xxxx Jaws

Compatible with the following tools:

- Hilti NPR 32-22 • Ridgid RP330-C
- REMS 571011

- Hilti NPR 32 XL-22
- Ridgid RP340
- REMS 577010

- Nibco PC-280
- Milwaukee 2673-20
- REMS 572111

- Nibco PC-100
- Milwaukee 2673-20L
- REMS 571013

- Ridgid 320-E
- Milwaukee 2773-20
- REMS 571014

- Ridgid RP330-B
- Milwaukee 2773-20L
- Victaulic Vic-Press™

- Ridgid CT400
- Milwaukee 2922-20
- Tool Style PFT510

LOOP CAD

MrPEX® is pre-loaded in LoopCAD®

MrPEX's radiant heating and snow melt systems are now available preloaded in LoopCAD. Not only can you design your circuit layouts, perform load calculations, and generate all hydronic data, you can also generate a complete materials list and quotation based on MrPEX's detailed product

information. The MrPEX® design recommendations and data are also built in to the Add-on for you.

Below you can download LoopCAD with the MrPEX® Add-on already preloaded. Initially this will be in trial mode, giving you 30-days to evaluate the software for free. If you are downloading this as an update and you have already entered an Activation Code, the program automatically switch to the full version for you.

Download of this release is available at: www.LoopCAD.com/mrpex

For additional MrPEX® information go to www.mrpexsystems.com.

Price Changes

MrPEX® reserves the right to change published prices and product availability without prior notification. Our policy is a minimum notification period of 30 days, but under unusual circumstances it may become necessary to shorten this period to meet market needs.

Terms

Terms are 30 days Net or per separate agreement with individual customer.

Minimum Order Quantity

The minimum order is \$300.00 net price. For orders less than \$300.00 net, an order processing charge of \$15.00 will be applied.

Finance Charge

A finance charge of one and one half percent (1.5%) per month will be charged on all overdue balances. This corresponds to an eighteen percent (18%) annual percentage rate (APR).

Taxes

We are required by law to charge applicable state and local taxes unless a sales tax exemption certificate has been provided.

Shipping

We will ship orders received as soon as possible. We will try to communicate regarding possible back-orders. Back-orders will be billed separately. Note that items may sometimes be shipped from separate locations. Orders will ship from closest warehouse location only when ordered products are available from there.

Freight Claims, Shortages

If material is received short or damaged, the receiver must require the agent of the transport company to make a notation of delivery condition on the freight bill. If, or when, the goods is arrival inspected and it is found to have a damage likely caused by the freight company, the receiver must report the claim to MrPEX® Systems. We must receive such a claim within 48 hours of the receipt of goods.
