

Smart Water Leak Protection Made Easy

Wireless Leak Sensors • Automatic Shutoff Valve • Universal Gateway

Protect your customers—and your reputation—The MrPEX® Wireless Leak Detection System installs fast, works anywhere, and stops water damage before it starts.

Installer-Friendly Features

Universal Gateway

- » **Connects** sensors, valves, and smart devices
- » **Supports up to 100 devices** with extended range
- » **App control** from phone, tablet, or PC
- » **Optional text & email alerts** via internet connection
- » **Quick, app-based setup** with built-in rules engine

Wireless Leak Sensor

- » **Battery operated** – no wiring required
- » **Flexible placement** on floor, mount in holder, or extend to sump/drain
- » **Add multiple sensors** for full coverage
- » **Instant signal** to shutoff valve when leak detected

Automatic Shutoff Valve

- » **Various sizes:** ¾"–1¼" NPT Female connections
- » **Auto-close** on leak detection
- » **Battery backup** for outages
- » **NSF Certified & Safe Drinking Water Act** compliant (including Massachusetts)

Smart, Scalable, & Connected

- » **Standalone protection or integrate** with MrPEX® Wireless Zoning Systems
- » **App-based** monitoring & control
- » **Instant leak notifications** to your smartphone

Note: Active internet service and router required for setup and remote notifications.

Why Install MrPEX®?

- » **Fast, clean** installs
- » **Flexible** sensor placement
- » **Reliable**, code-compliant protection
- » **Remote alerts** for instant action
